

Hi, I am delighted to express my profile and journey in a quick & nutshell. Holding multi post graduation and technical academics with IT & Social sector expertise (20 years...) I am moving with the cause for the underprivileged and marginalised communities across India.

Through handhold support system from various NGO's/NPO's we are making and bringing sustainable changes in the communities and individual. This has been a burning passion for me to see; when the people and their remarkable excellence come as shining star to the world.

This is the difference we all wish and once in life time. As we know we live ONLY ONCE to make the difference. Now or Never! Thank YOU!

Richard Brisley Prashanth
